Summary

Full stack developer with strong expertise in Next.js, React specializing in interactive web applications also hands-on experience in backend development using Node.js, Express.js, Fast API, and cloud-based solutions.

SKILLS

- **Frontend Development**: React, Next.js, Three.js, Tailwind CSS, Axios, Fetch, Graphql
- **Backend Development**: Node.js, Express.js, Django, Socket.io, Docker
- **Frameworks**: React.js, Next.js, Node.js, Express.js, Flutter
- **Languages**: TypeScript, JavaScript, Python, HTML, CSS
- **Databases**: SQL, MongoDB, Supabase DB
- **Testing**: Jest, Postman, Selenium (basics)
- **Version Control & Tools**: Docker, Git, Jenkins, AWS , Vercel

WORK EXPERIENCE

Creative Connect Advertising: Full-Stack Developer *(Next + Django)* [Jan 2026 –Present]

- Developing full-stack features for the company's CRM and e-commerce platform.
- Working on both frontend UI/UX and backend logic.
- Implementing admin dashboard enhancements, product management, and order handling features.

Osaid Travel & Tours: *Fullstack Developer (MERN)* [Mar 2025 –July 2025]

- Developed and deployed responsive business websites using the MERN stack.
- Integrated APIs for booking and analytics with secure authentication.
- Automated CI/CD pipeline via Vercel for seamless deployment.

PROJECTS

Content Flow — MERN Stack (Final Year Project)

- Developed a **social media management system** for post scheduling, analytics, and AI-based ad generation.
- Integrated **Gemini API** for automatic caption generation and visual ad creation.
- Implemented API connectivity for **Facebook, Instagram, LinkedIn, and Twitter**.
- Designed a scalable backend with role-based access and persistent user sessions.

ShareDocs — Next.js, Node.js, Supabase

- Built a **real-time collaborative document editor** enabling users to create and share unique documents.
- Implemented **secure, no-login access** using unique session-based sharing links.
- Enabled real-time collaboration using **Supabase database**.
- Deployed using **Next.js API routes** with optimized server-side handling.

News & Blogging Platform — Next.js, MongoDB, NextAuth

- Developed a **secure admin dashboard** for content moderation, approvals, and analytics.
- Implemented **category-based filtering**, comment system, and image uploads using **Cloudinary**.
- Integrated **NextAuth** for authentication and role-based access control.
- Deployed on **Vercel**, optimized for performance and real-time publishing.

Real-Time Object Tracking System — MERN Stack, Socket.io

- Developed a **web-based real-time object tracking system** using the MERN stack.
- Implemented **Socket.io** for live location updates and bidirectional communication.
- Visualized object movement on the frontend with real-time synchronization.
- Designed a scalable backend architecture to handle multiple tracked objects concurrently.

EDUCATION

Comsats University Islamabad | Bachelors of Science in Software Engneering [jan 2022 – jan 2026]
