ADNAN KHALIL

Full Stack Developer | React & Next.js | Node.js & Python | MongoDB & PostgreSQL
Islamabad, Pakistan | 0342-1986817 | adnanmughal0342@gmail.com | linkedin.com/in/adnankhalil099 | github.com/adnaan-2

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 2 years of hand-on experience in development while 1+ years of professional experience building and shipping production-grade web applications. Specialized in React, Next.js, Node.js, and Django, with hands-on delivery across CRM platforms, e-commerce systems, and AI-integrated tools. Proven ability to own features end-to-end from architecture to deployment in fast-paced agile environments.

WORK EXPERIENCE

Full-Stack Developer (Next.js + Django) *Jan 2026 – May 2026*
Creative Connect Advertising LLC — Islamabad, Pakistan

- Built and shipped full-stack features for a live CRM and e-commerce platform serving real clients.
- Designed and developed a complete website for a printing company handling frontend and backend collectively.
- Implemented admin dashboard enhancements, product management workflows, and end-to-end order handling systems using Django and PostgreSQL.

Junior Web Developer (MERN Stack) *Jan 2025 – Dec 2025*
Osaid Travel & Tours — Remote

- Developed and deployed responsive business websites using MongoDB, Express.js, React, and Node.js.
- Integrated third-party APIs for booking and analytics with secure JWT-based authentication.
- Automated CI/CD pipeline via Vercel, reducing deployment time and eliminating manual release steps.

KEY PROJECTS

Content Flow — MERN *Stack + Gemini API — Final Year Project*

- Built a social media management system with AI-powered caption generation and visual ad creation
- Implemented API connectivity for Facebook, Instagram, LinkedIn, and Twitter with role-based access control.

ShareDocs — *Next.js · Node.js · Supabase*

- Developed a real-time collaborative document editor with secure, no-login session-based sharing links.
- Integrated real-time conflict resolution ensuring seamless multi-user editing without data loss.

News & Blogging Platform — *Next.js · MongoDB · NextAuth*

- Built a secure admin dashboard for content moderation, approvals, and analytics with specific categories
- Implemented NextAuth-based role authentication to restrict dashboard access to authorized admins only.

CRM & E-Commerce — *Next js+ Django + PostgreSQL — Creatice Connect Advertising LLC*

- Developed a custom e-commerce and business CRM platform to streamline internal operations and manage order lifecycles.
- Integrated a structured order lifecycle management system to track, update, and manage client orders efficiently.
